

Landmark CON29M

Suitable for residential sites

The Landmark CON29M coal report provides property-specific information relating to past, current and future underground and surface coal mining activities, for properties or sites in England, Scotland and Wales. Analysis is clearly presented in a simple traffic light system, with a professional opinion included as standard, providing practical next steps.

The Benefits to you

Specialist recommendations and professional opinion

Thorough industry knowledge of mining information, its complexities and limitations, Landmark CON29M report is backed by an expert team of former Coal Authority officers and industry surveyors, ensuring requirements of a coal search are satisfied. Unique and frequently updated mining data

Extensive data sources with Expert Assessment

Utilising PinPoint's extensive database of mining data, combined with expert and advanced risk

modelling techniques to automatically calculate risk, Landmark CON29M reports provide clear concise analysis & complete confidence in the results.

Accuracy, Speed and Reliability

Accessing a CON29M report from Landmark provides a concise summary of related hazards, including a professional opinion to help understand what further action, if any, should be taken – and all delivered within a matter of minutes.

Turnaround time

POWERED BY
PINPOINTCOAL

Delivering mining insight and assurances

Landmark CON29M Coal powered by PinPoint supports property solicitors, lenders and clients by providing expert intelligence and interpretation regarding mining-related hazards. It does so in an easy to read and understand report that advises on the potential impact mining activity may have on the property in question.

Why choose Landmark's CON29M Coal Report?

- Automated service delivers accuracy, speed, capacity and consistent pricing
- Data independently verified and tested for accuracy
- Accurate reporting of risks, even in areas known by The Coal Authority to be problematic
- Meets extensive due diligence requirements
- All Landmark CON29M Coal reports are signed-off by PinPoint Director Phil Huddleston MRICS Chartered Mineral Surveyor, former Head of Mining Information at The Coal Authority
- Includes underground roadways, mineral screening and mining geology as standard
- Brine risk insurance provides peace of mind
- Expert analysis and assessment at a cost effective rate

About PinPoint Information

With decades of experience in the sector, PinPoint Information has been providing due diligence reports to property professionals to help them identify, understand and assess risks.

With a specialism in Mining Reports, the expert team has established its own extensive database of coal mining data and, combined with advanced risk modelling algorithms and techniques, PinPoint provides specialist support, consistent opinion and guidance to help clients in understanding ground-based risks.

PinPoint is uniquely placed to provide pre-processed data models, which deliver critical layers of data not currently available from other providers.

What's more, as PinPoint is only partially reliant on third party data, annual price increases from the Coal Authority have only a limited impact on PinPoint's pricing, ensuring security of data supply and consistently swift delivery.

Landmark is at the forefront of legal products and data supply to the UK's residential and commercial property market. Our pioneering tech, data, reports and expert team enable thousands of successful property transactions, every day.
