

Q-Mobile Single Survey

A powerful expansion that enables you to complete the Single Survey on a mobile device

Q-Mobile Single Survey

For Surveyors who want to standardise and streamline their processes and save time when completing Single Survey Reports. Q-Mobile offers a set of tools in one application which allows you to capture evidence whilst concentrating on the physical inspection of the property

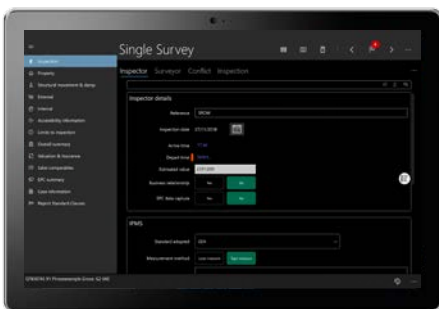

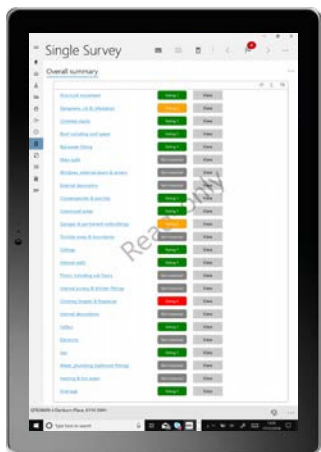

Introduce Q-Mobile into your daily routine to increase your efficiency and reduce errors. All you need when you go to site is one device and your professional judgement, no need for a pen and paper. In our latest update for Q-Mobile we've worked with the familiar Windows platform and mobile technology to make your life easier.

Use Q-Mobile to complete your site notes and supplementary evidence effortlessly in an order which suits you. Capture additional evidence through photographs, post-it notes or using the scribble tool, easily available at all times while using the app.

Use company specific phrases and see how the report is coming together by viewing a real-time PDF preview of the Single Survey Report while you're on site.

Save time whilst on site

Q-Mobile uses dynamic questions and inputs pre-defined responses & phrases depending on the property features you've identified as present. If there is no porch, tell Q-Mobile and it will hide everything pertaining to that feature so you're not wasting time navigating irrelevant questions.

Going from a bright exterior to a low light interior? No problem with the light & dark theme, ideal for shifting light conditions

There's phrase filtering and phrase automation based on the evidence captured, which aids the easy completion of your report. In addition to this Q-Mobile will also capture your EPC data as you move through the property and at any point you can see a summary to see how it's shaping up.

Never miss a detail (or appointment)

Do you ever receive post inspection queries? When using Q-Mobile there's no need to worry. We ensure all relevant questions have been answered before you can sign off your report. All supplementary evidence is retained alongside site notes in an audit PDF, which is quickly accessible should you ever need it.

We've introduced a new 'Overall summary' section which is handy when completing your site notes and if you need to do a replacement inspection. Use this to quickly access sections that require amendments.

All of this is useless though if you are in the wrong place at the right time (or vice versa) but the Q-Mobile diary screen will help you avoid that with your schedule and location maps all in one place.

Key features

- Light and Dark theme for shifting light conditions
- Capture additional information using the scribble tool, camera and sticky notes functions
- Validation points and notifications
- Sales comparables
- Diary screen
- SS Report PDF preview
- Dynamic questions
- EPC data capture and data summary

Forget about tablet costs with our free Surface Pro leasing package

We understand that the cost to buy and maintain tablet devices and a lack of internal IT resources to manage them can be a barrier to adopting a mobile reporting strategy. So we've put Q-Mobile into a simple package with free leasing of Microsoft Surface Pro tablets worth over £1,000 to run it on!

How to qualify for the free Surface Pro

Sign up to our Q-Mobile Surface Pro offer

Pay per case completed on Q-Mobile

Complete 40 or more cases per month and don't pay the leasing charge

Surface Pros are delivered with Q-Mobile pre-installed

It's as simple as that, we'll take care of the rest for you

I'm free if you complete more than 40 cases per month

“ I would most certainly recommend Q-Mobile as a solution for surveys and valuations as it is the best in the market. It is comprehensive and a delight to use. It meets lenders’ audit requirements, removes the paper mountain that we used to create, reduces errors and produces the reports and site note files that are required really efficiently.

As a surveyor who has been in the industry for over 25 years I am delighted at the way it helps us carry out our work.”

Tim Hollingsworth

Managing Director, Rumball Sedgwick
